SONIC UNIVERSE™
PEPPERS-AMASH 2012!

Welcome to the planet Mobius - - a world beyond what you know from the SEGA games! Dr. Eggman has tracked his wayward lackey to the Dragon Kingdom! But is Dr. Eggman the hunter – or the hunted?

SONIC UNIVERSE™

PREVIOUSLY...

Doctor Eggman and his evil Eggman Empire have been on quite the winning streak lately! With the launch of his latest battle station and roboticization of Sonic's teammate and main squeeze, Sally Acorn, you're lookin' at one jolly evil genius!

Jolly, that is, until his faithful servant and lackey for years, Snively, turned traitor to the Empire and launched a daring escape! The little sneak has been on the run ever since, first stopping over in the United Federation in an attempt to recruit his kid sister Hope!

Hope thought for a moment that Snively had changed his villainous ways, but quickly discovered that this was not the case. Snively fled in disgrace, vowing to free his former flame, the Iron Queen, from her prison cell in the Dragon Kingdom!

But Eggman is in hot pursuit, and

Snively is running out of allies...

Dear 'My Sonic Universe,'
It is I, a person you have never heard from!

I love this letter already.

I'm concerned about something in "Sonic Universe" that caught my attention.

Go onnnnn...

I'm slow at "Sonic Universe" so I recently got the whole "30 Years Later," bundle... book...SOMETHING!!!!

Graphic novel!

So anyways, I noticed that in the future (YEAH!!!!) Bunnie's son and daughter are cyborgs but in "Sonic the Hedgehog" #232 doesn't she get cured by Naugus?

A fine question! Mobius: 30 Years Later is indeed a POSSIBLE future, as our old friend Doc would tell you, the future isn't written! It's whatever Sonic and the Freedom Fighters make it to be!

Also if you ask me you should DEFINITELY make a series of "Sonic Universe" about "Sonic Generations!"

A fine idea! You're on a roll!

That would be CHEESE!

A fine – wait...what?

(Cheese is form of awesomeness)

Oh boy.

Thanks for reading, please reply.

Thank you, Adam. You are cheese!

Dear 'My Sonic Universe,'
My name's Madeline, I'm 12. I've been reading your comics since issue #148, and I am loving how Sonic Universe has been going lately!

Glad to hear it! Thanks, Madeline!

I especially love the cover of issue 38, and its parody of Mystery Science Theater 3000. =) I've been watching the show for a while now, and I was really excited when I saw the cover preview online.

Penciller Jamal Peppers really went above and beyond with that cover – it's one of my favorites!

Dear 'My Sonic Universe,'
Hey Archie Sonic Team! As always you guys are doing an amazing job on the Sonic Universe series! But, like a lot of people, I just have a few questions.

You will have the usual!

First, I know you probably got a lot of questions like this already, but what happened to Thrash?

Thrash, who debuted in SU Arc#3: Knuckles Returns (coming soon to Graphic Novel! plugplugplug), will be returning soon! Thrash has a nasty chip on his shoulder, and we're going to learn all about it!

Second, How long does it take to draw a single page of the comic?

It depends on the artist, but averages to about 6 pages a week (give or take)

Third, When is Dr. Finitevus making his next appearance?

Dr. Finitevus will be back with a vengeance before you know it!

But questions aside, thank you guys so much for making such an amazing comic book, I am 15 and I still read it. As always keep on juicing!
